

UHF Antenna 6dBi Datasheet

VA-Q130R

深圳市万全智能技术有限公司

SHENZHEN VANCH INTELLIGENT TECHNOLOGY CO.,LTD

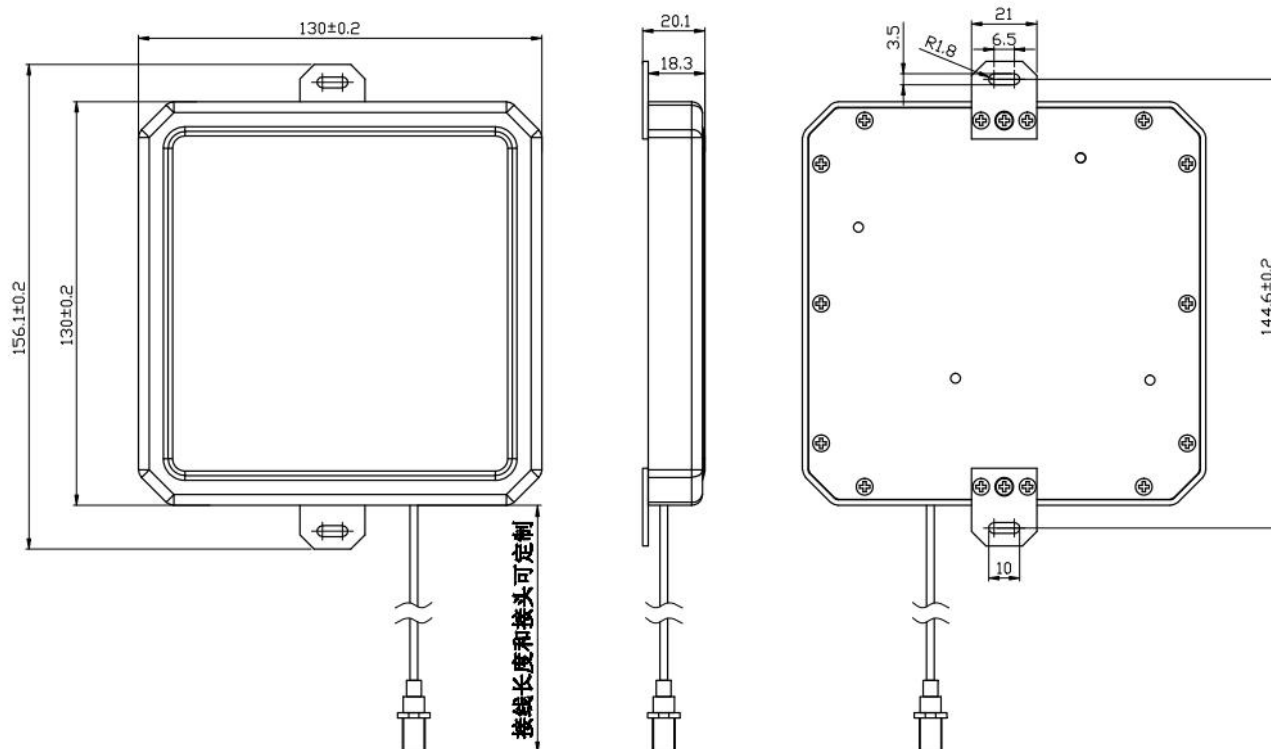

Product Features:

Ultra-high frequency antenna - 902-928MHz - 6dBi - circularly polarized - RG316 lead-out , 12CM long , connects to SMA female connector - dimensions 130*130*18mm - mounted with ear, suitable for smart cabinet applications.

Product parameters:

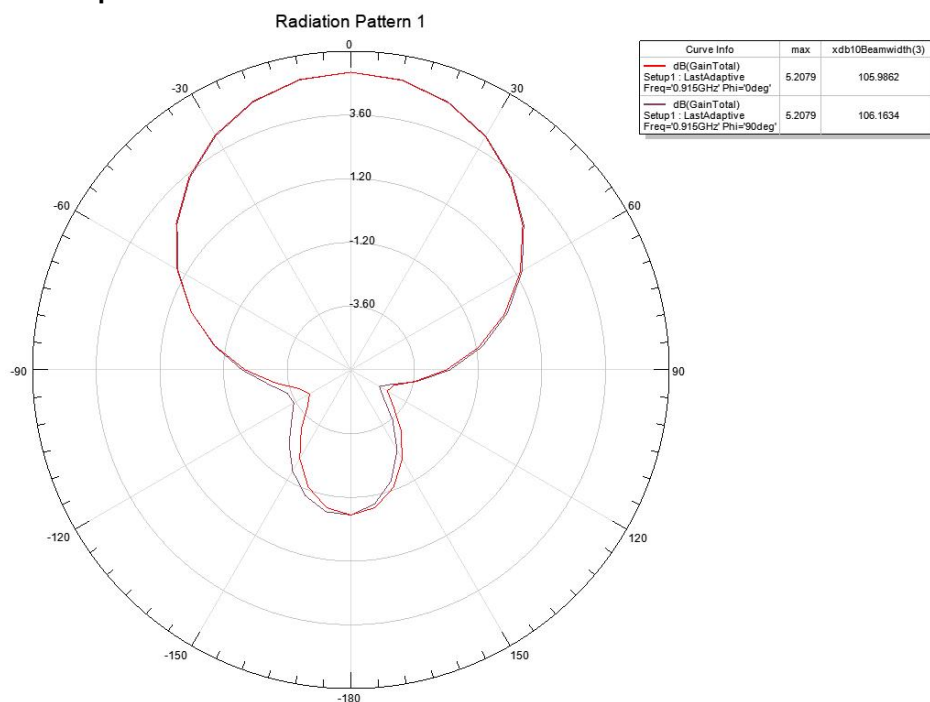

Product Model	VA-Q130R
Performance Indicators	
Frequency range	902-928MHz
Gain	6 dBi
3dB half-power angle	Hor: 106° / Ver: 106°
Standing Bobby	≤1.3
Characteristic impedance	50Ω
polarization mode	Circular polarization
Shaft ratio	≤2dB
physical parameters	
connector	Side-mounted RG316/15cm/SMA-K connector/customizable
Antenna size	130*130*18mm
net weight	0.6kg
Radiation materials	F4B High Frequency Board / Nickel-plated Copper
Antenna radome material	ABS
Antenna radome color	White
Pole diameter	Ear hook installation
Operating temperature	-40 ~ 55°
